THE NEW ZEALAND

# JOURNAL OF AGRICULTURE.

## VOLUME 53.

*(July–December, 1936.)*

# INDEX.

A.

Adjustment of seasonal feed-supply to seasonal requirements of animals, 213.
Agricultural statistics, 1935–36, 173.
Answers to inquiries, 188.
Apiary, the (monthly notes), 58, 122, 185, 250, 313, 376.
Apples, prevention of storage wastage in Cox's Orange Pippin, 12.
Application of orchard sprays: III, Spray nozzles, 68.
Arsenical poisoning of live-stock, notes on, 282.
"Atlacide," control of ragwort with, as compared with sodium chlorate, 65.
Auckland pastures, potash top-dressing of, 359.
Auckland Province, farming in, 85.

B.

Bayly, A., Hankin, T. H., and Haugh, P.—Eversion of the vagina in ewes, 19.
Behaviour of New Zealand certified clovers in New Zealand and abroad, 76.
Bell, J. E.—Potash top-dressing of Auckland pastures, 359.
Berry-fruit culture, 239.
Blair, I. D.—Sprouted grain for seed-wheat purposes, 37.
Bones, burnt, for laying hens, 188.
Brown-heart (mottled heart) in swedes, 99, 365.
Butter and cheese, grading of export, 170.
Butter-boxes and mould-growth, 129.
Buttermilk in fattening bacon pigs, the use of concentrates with, 340.

C.

Calder, J. W.—
Clovers in Canterbury pastures, 227.
Value of strains of rye-grass in Canterbury, 146.
Calder, R. A.—See Hadfield, J. W., and Calder, R. A.
Canterbury clovers in pastures, 227.
Canterbury, pastures and their improvement in relation to management of foothill farms in, 311.
Canterbury, value of strains of rye-grass in, 146.
Cereals, the dry-dusting of, 109.
Certification, seed-potato, 47.
Chamberlain, E. E.—Turnip-mosaic, 321.
Cheese, grading of export butter and, 170.
Citrus culture (monthly notes), 55, 119, 178, 244, 308, 371.
Citrus industry, 49.
Clovers, behaviour of New Zealand certified, in New Zealand and abroad, 76.
Clovers in Canterbury pastures, 227.
Commercialization of hybrid-vigour in the tomato, 139.
Concentrates with buttermilk in fattening bacon pigs, the use of, 340.
Connell, R. P.—
The Farm (monthly notes), 50, 112, 174, 240, 304, 367.
Use of pastures and pasture-equivalents in pig-keeping, 204.
Cox's Orange Pippin apples, prevention of storage wastage in, 12.
Crested dogstail, types found in commercial, 232.
Croucher, W. J.—See McMeekan, C. P., and Croucher, W. J.
Cussen, C. J. C.—Poultry-keeping (monthly notes), 56, 120, 181, 247, 311, 374.

D.

Dairy Division—Grading of export butter and cheese, 170.
Dairy-herd testing in New Zealand, 1935–36, 353.
Dallas, W. K.—Citrus industry, 49.
Dayus, C. V.—Notes on arsenical poisoning of live-stock, 282.
Deficiencies known and suspected in live-stock nutrition in New Zealand, 200.
Distemper in dogs, 96.
Dogs, distemper in, 96.
Dry-dusting of cereals, the, 109.

E.

Earp, E. A.—The Apiary (monthly notes), 58, 122, 185, 250, 313, 376.
Elliott, A. G.—Taranaki pasture competitions, 1935–36, 296.
Elliott, I. L.—Top-dressing in sheep-farming on rolling country in the Hastings district, 287.
Estimates of the season's lambing, 382.
Eversion of the vagina in ewes, 19.

F.

Factors leading to excessive wastage in the pig industry, 150.
Factors relating to the control of soft-scald in Jonathan apples, 161.
Farming in the Auckland Province, 85.
Feed-supply, seasonal adjustment of, to, seasonal requirements of animals, 213.
Fertilizers, checking quality of, 303.
Fields Division—
Brown-heart (mottled heart )in swedes, 99, 365.
Seed-potato certification, 48.
The dry-dusting of cereals, 109.
Flay, A. H.—Pastures and their improvement in relation to the management of foot-hill farms in Canterbury, 331.
Flour-milling processes, 254.
Frost, H. F.—
Berry-fruit culture, 239.
Gooseberry culture, 292.

G.

Goodwin, B. G.—The Orchard (monthly notes), 244, 308, 371.
Gooseberry culture, 292.
Gorman, L. W.—Behaviour of New Zealand certified clovers in New Zealand and abroad, 76.
Grading of export butter and cheese, 170.
Grainger, A. R.—Citrus-culture (monthly notes), 119, 178, 244, 308, 371.
Grimmett, R. E. R., and McIntosh, I. G.—Suspected zinc-poisoning in pigs, 34.
Gyrotiller, the, 166.

H.

Hadfield, J. W., and Calder, R. A.—
Commercialization of hybrid-vigour in tomato, 139.
Lucerne: Pollination and seed-production, 28.
Hamblyn, C. J.—Paspalum as a pasture-grass, 257.
Hamilton, R. G.—The Orchard (monthly notes), 53, 116, 178.
Hankin, T. H.—See Bayly, A., Hankin, T. H., and Haugh P.
Hastings district, top-dressing in sheep-farming on rolling country in, 287.
Haugh, P.—See Bayly, A., Hankin, T. H., and Haugh, P.
Hopkirk, C. S. M.—
Deficiencies known and suspected in live-stock nutrition in New Zealand, 200.
Paspalum staggers, 105.
Horticulture (monthly notes), 59, 124, 185, 251, 315, 378.
Hyde, W. C.—Horticulture (monthly notes), 59, 124, 185, 251, 315, 378.

I.

Inventions of agricultural interest, 44, 98, 277, 366.

J.

Jacques, W. A.—Types found in commercial crested dogstail, 232.
Jonathan apples, factors relating to the control of soft-scald in, 161.

L.

Lambing estimate, North Island, 302.
Lambing, estimates of the season's, 382.
Levy, E. Bruce.—Observations relative to pasture seed-mixtures, 270.
Live-stock Division—
Estimate of North Island lambing, 302.
Estimates of the season's lambing, 382.
Live-stock in New Zealand, 192.
Live-stock nutrition in New Zealand, some deficiencies known and suspected in, 200.
Lucerne: Pollination and seed production, 28.

M.

McIntosh, I. G.—See Grimmett, R. E. R., and McIntosh, I. G.
McMeekan, C. P.—The use of concentrates with factory buttermilk in fattening bacon pigs, 340.

McMeekan, C. P., and Croucher, W. J.—
Management of pigs on dairy-farms, 1.
Management of pigs on dairy-farms, 1.
Marketing Act, the Primary Products, 45.
Marshall, D. — Factors leading to excessive wastage in the pig industry, 150.
Meteorological Office : Weather records (monthly), 63, 127, 190, 255, 319, 383.
Morrison, A. E.—
Recent regulations affecting farmers, 171, 236.
The Primary Products Marketing Act, 45.
Mottled heart in swedes, 99.
Mould-growth, butter-boxes and, 129.

N.

Neill, J. C.—See Riddet, W., and Neill, J. C.
North Island lambing estimate, 302.

O.

Observations relative to pasture seed-mixtures, 270.
Orchard-sprays, application of, 68.
Orchard, the (monthly notes), 53, 116, 178, 244, 308, 371.

P.

Paspalum as a pasture-grass, 257.
Paspalum staggers, 105.
Pasture competitions, Taranaki, 1935–36, 296.
Pasture seed-mixtures, observations relative to, 270.
Pasture seed-mixtures, some aspects of the extreme simplification of, 278.
Pastures and their improvement in relation to foothills farms in Canterbury, 331.
Pastures and pasture equivalents in pig-keeping, use of, 204.
Pastures and pig-fattening, 231.
Pastures, potash top-dressing of Auckland, 359.
Pastures, some aspects of potash-manuring of, 193.
Paynter, L.—Citrus-culture (monthly notes), 55.
Pig-fattening, pastures and, 231.
Pig industry, factors leading to excessive wastage in, 150.
Pig-keeping, use of pastures and pasture equivalents in, 204.
Pigs on dairy-farms, management of, 1.
Pigs, suspected zinc-poisoning in, 34.
Pigs, the use of concentrates with buttermilk in fattening bacon, 340.
Poisoning of live-stock, notes on arsenical, 282.
Potash-manuring of pastures, some aspects of, 193.
Potash top-dressing of Auckland pastures, 359.
Poultry-keeping (monthly notes), 56, 120, 181, 247, 311, 374.
Prevention of storage wastage in Cox's Orange Pippin apples, 12.
Primary Products Marketing Act, 1936, 45.

R.

Ragwort, control of, with "Atlacide" as compared with sodium chlorate, 65.
Recent regulations affecting farmers, 171, 236.
Red-water in stock, 189.
Regulations affecting farmers, recent, 171, 236.
Review : Flour-milling processes, 254.
Riddet, W., and Neill, J. C.—Butter-boxes and mould-growth, 129.
Rye-grass, value of strains of, in Canterbury, 146.

S.

Scott, M. J.—Adjustment of seasonal feed-supply to requirements of animals, 213.
Seasonal notes, 50, 112, 174, 240, 304, 367.
Seed-mixtures, observations relative to pasture, 270.
Seed-potato certification, 48.
Seed-wheat purposes, sprouted grain for, 37.
Siddall, E. L.—Distemper in dogs, 96.
Singleton, W. M.—Dairy-herd testing in New Zealand, 1935–36, 353.
Smallfield, P. W.—
Farming in the Auckland Province, 85.
Pastures and pig-fattening, 231.
Smith, J. M.—Some aspects of the extreme simplification of pasture seed-mixtures, 278.
Sodium chlorate, control of ragwort with "Atlacide" as compared with, 65.
Soft-scald in Jonathan apples, factors relating to the control of, 161.
Some aspects of potash-manuring of pastures, 193.
Sprouted grain for seed-wheat purposes, 37.
Stafford, W. C.—The gyrotiller, 166.

Storage wastage in Cox's Orange Pippin apples, prevention of, 12.
Strains of rye-grass in Canterbury, value of, 146.
Sugar-beet, utilization of, 188.
Suspected zinc-poisoning in pigs, 34.
Sutherland, R.—
Factors relating to the control of soft-scald in Jonathan apples, 161.
Prevention of storage wastage in Cox's Orange Pippin apples, 12.
Swedes, brown-heart (mottled heart) in, 99, 365.

T.

Taranaki pasture competitions, 1935–36, 296.
Taylor, G. G.—Application of orchard-sprays, 68.
Testing in New Zealand, dairy-herd, 1935–36, 353.
Tomato, commercialization of hybrid-vigour in, 139.
Top-dressing in sheep-farming on rolling country in the Hastings district, 287.
Top-dressing of Auckland pastures, potash, 359.
Turnip-mosaic, 321.
Types found in commercial crested dogstail, 232.

U.

Udder, blood coming from, 188.
Use of pastures and pasture equivalents in pig-keeping, 204.

V.

Vagina, eversion of, in ewes, 19.
Value of strains of rye-grass in Canterbury, 146.
Vine-culture under glass, 40, 156, 222, 263.

W.

Weather records (monthly), 63, 127, 190, 255, 319, 383.
Wheat varieties, harvest of, 1936, 303.
Woodcock, J. W.—
Control of ragwort with "Atlacide" as compared with sodium chlorate, 65.
Some aspects of potash-manuring of pastures, 193.
Woodfin, J. C.—Vine-culture under glass, 40, 156, 222, 263.

Z.

Zinc-poisoning in pigs, suspected, 34.
